

# FP&S

**Furnace Products and Services, Inc.**

## Product Lines

### Hotwork-USA

Hotwork is the world leader in glass furnace drains, controlled cool downs, heat-ups, expansion control supervision, cullet fills, sulfate burnouts, and hot holds.

### Refractory Machining Services, Inc.

Specializing in precision cutting and grinding of all grades of refractory. RMS has worked for major glass and refractory companies. Offering close machining tolerance, assembly construction, and compound refractory shaping.

### FP&S Industrial By-Product Recycling

We recycle new and used refractory products and high alloy metal products. Selling to the end user we obtain excellent prices and work on a commission basis. We attempt to get you the best possible price. **Our goal is to form a partnership with your plant and keep the process simple.**

### Fosbel, Inc.

Fosbel specializes in innovative in-situ refractory repair solutions including an array of services to the Glass, Nonferrous, Coke, Steel and Petrochemical Industries. The range of these services include complex engineered projects, ceramic welding, hot repairs, cold repairs, casting, and high and low emissivity coatings. Fosbel has been the premier provider of ceramic welding applications for nearly 30 years.

### Small Construction, Inc.

### Small Construction, Inc.

Small Construction has over 30 full time machine operators and multiple machines ranging from small electric to large diesel excavators, which allow the versatility required to remove your refractory in a safe and timely manner. Small Construction has been serving the cement, lime, glass, aluminum and steel industries since 1990.

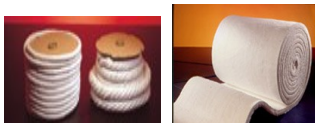

### Global Combustion Systems

We offer Burners for Regenerative, Recuperative, Oxygen and Hot Air systems. Gas/Oxygen, Fuel Oil, Furnace Control Combustion Systems and Combustion Services. The VitroGlo line of Low NOx burners include side of port and underport burners and also have a large number of thru port burner installations.

### Peepholes

FP&S contracted with a foundry in 1997, which has made thousands of the cast iron peepholes with a Meehanite addition for the higher temperatures required in the glass industry. Quantity discounts and direct shipping are available and smaller quantities are available from our inventory.

### Fiber Products

FP&S offers a wide array of ceramic fiber products, including: Refractory Ceramic Fiber, Board, Blanket, Rope and Tape, Fiber Textiles, Soluble Fiber, Custom Curtains, Seals and Multi Component Fabrications.

Batch Materials Iron Oxide, BF Slag, and other Industrial By Product Materials
